

Pinetop-Lakeside

Plastic and Metal Recycling Service Suspended

Notice of Suspension

The Town of Pinetop-Lakeside is suspending all recycling service within the Town effective Friday, August 31, 2018.

The Town of Pinetop-Lakeside has sought to provide numerous recycling bins at various locations in a cooperative effort with Town residents seeking to be wise stewards of our community and resources. We are disappointed that the Town must discontinue this service due to the suspension of recycling collection by the local waste collection company.

The Town is committed to implementing another option for the community by building a Waste Collection Center and is actively searching for a central location and gathering information for the facility; however, until the site is functioning the Town will not be able to offer this service.

The Pinetop-Lakeside Sanitary District maintains a cardboard only recycling container at their business office located at 2600 Alisa Lane.

Additional information regarding this change and developments for the Waste Collection Center can be found on the Town Website: www.pinetoplakesideaz.gov or by visiting or calling the Pinetop-Lakeside Public Works Department: 958 S. Woodland Road | Pinetop-Lakeside, AZ | 928-368-8885
